ALEXANDER IVANOV

Front-End Web Developer

OBJECTIVE

Conscientious and creative JavaScript programmer skilled in front-end and familiar with full-stack web development. Seeking to build pleasant and reliable web applications using modern tech stack. Curious to find creative solutions for unfamiliar problems and apply best practices for familiar ones. Able to suggest requrement refinements and come up with alternative solutions when needed. Interested in product architecture, project management and UI/UX design. Happy to discover and share knowledge.

EXPERIENCE

EPAM, August 2021–Now

Content hub for marketers `Vue, Jest, TypeScript`

- Increased FE test coverage from 24% to 75%.
- Wrote documentation for local setup and launch of the FE app.
- Participated in product demo sessions, conducted a knowledge transfer session.
- Successfully suggested UI improvements and task refinements where they were missing.
- Contributed to architectural decisions of certain features.

Microservice-based ecommerce app `Vue, TypeScript`

- Participated in development of a FE application for a microservice-based e-commerce online store.
- Improved UI reliability and performance.

Action Engine, July 2020–August 2021

Real estate trading platform `Vue, Chart.js, jQuery, Python`

- Developed multiple Vue apps: dashboards with data visualization, filters, dynamic recursive form app.
- Automated Python to JavaScript code conversion.

Freelance & Pet Projects

FABLE Jacket Constructor `JavaScript, jQuery`

A user interface for building a winter jacket of custom color combination.

Maple Season `Vue`

A Vue SPA website with routing, custom music player and lazy loading.

Face Recognition Project `React, Node.js, PostgreSQL`

A full stack web app that uses Clarifai API to detect faces in images.

EDUCATION

EPAM Learning & Development

Mentee in React, Node.js, Clean Code courses.
Mentor in JavaScript basics course.

MERA Summer School

UNIX, testing basics, version control systems, network protocols.
2nd place in front-end final project competition.

Nizhny Novgorod State University

Faculty of Computational Mathematics and Cybernetics, 2011–2014.
